

April 2019 Fuel Usage Report

In April you consumed 11.77% less than your neighbors.

Fuel Consumption

* Your neighbor is the average of all the other FNSB households participating in this study.

April 2019 Fuel Usage:

Total Usage: 12.336 gal

Price of Fuel: \$3.00/gal

Total Cost: \$37.01

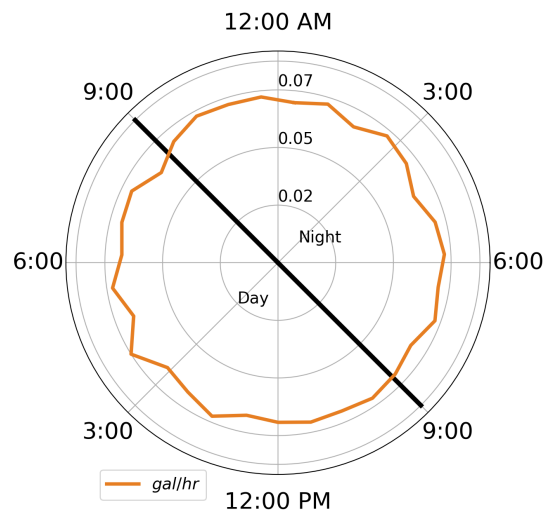

In April:

Your average fuel consumption was 0.411 gallons per day.

Your average fuel cost was \$1.23 per day

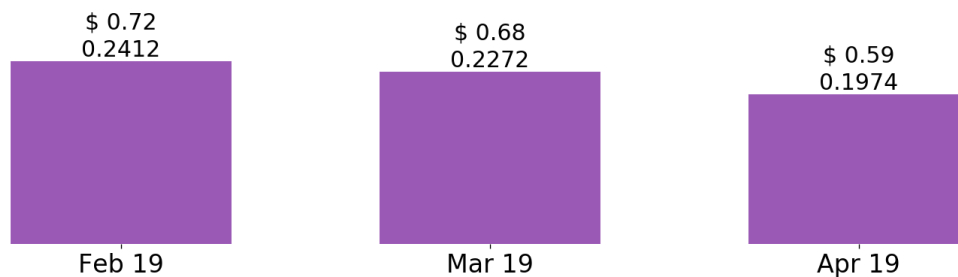

Average indoor and outdoor temperatures for this month are: 65.85 °F and 2.46 °F, respectively.

Hourly Fuel Consumption

Track Your Progress:

You consumed 13.09% less this month than last month.

Weather Adjusted Gallons per Month

Tip to Save Fuel

Consider reducing the set temperature on your heater. A one degree reduction in your set temperature results in about 2% savings on your fuel bill. The U.S. Department of Energy recommends setting your temperature to 68 degrees when you are at home and awake, and recommends turning down the temperature (by as much as 10 degrees) during the nighttime hours when you are asleep or when you are away from your home.
